Frosted Adhesive Vinyl

Custom-size artwork guide

Choose dimensions for your printed frosted privacy film.

Download the exact-size template from the product page.

Build artwork at the ordered dimensions. Do not add bleed.

Maximum 52 x 1908 inches, in either orientation.

Use inches with up to two decimal places.

Adhesive privacy film with 7 mil matte frost lamination.

Semi-opaque material diffuses light and reduces visibility.

One-sided CMYK UV printing, with double-layer ink.

Colors may look darker before the backing is removed.

Evaluate color after installation on the intended surface.

Supply one single-page PDF or JPEG; CMYK, 150 PPI.

Outline fonts and convert spot colors to CMYK.

Remove all template lines, labels and crop marks.

Extend background colors to every edge.

Allow space between important text and the finished edges.

The green guide is a suggested inset, not added bleed.

Apply only to clean, smooth, flat glass surfaces.

Final size, production availability and shipping are reviewed.
